Sample EMR Printout

By Sammi Alspach

This is an example of an EMR printout at UW. Most EMRs have a printout that includes vital signs, labs, intake/output, medications, and sign-out notes from the team. You can use this piece of paper to write down additional notes including imaging results, consultant recommendations, and your proposed assessment and plan.

Smith, Joe DOB: 1/1/1900 Primary Team: Med A **Code Status: Full Code** Allergy: lisinopril, penicillin HD 4 – Heart Failure Exacerbation	**Vital Signs** Vital Last Range Temp 36.3 35-37.1 HR 79 65-82 SBP 116 105-130 DBP 64 60-75 RR 16 14-18 Sat 94 92-95 O2 1L 1L-3L	**Medications** Scheduled Meds Aspirin 81mg PO daily Atorvastatin 40mg PO QHS Carvedilol 3.125mg PO BID Furosemide 80mg IV BID PRN Acetaminophen 650 PO Albuterol 2.5mg Neb Inh Magnesium sulfate 16mEq IV MiraLax 17 g Ondansetron 4mg IV Ondansetron 4mg PO Potassium Chloride 40mEq IV Potassium Chloride 40mEq PO Senna 17.2mg PO	**Illness Severity** Stable **Patient Summary** 118 y/o M w/ CHF, CAD s/p stent, OSA admitted w/ CHF exacerbation, improving with diuresis. 1/2: -Net neg 800mL yesterday -oxygen weaned to 1L NC -close to dry weight, goal net neg 1L today -restarted carvedilol today #CHF: IV furosemide, carvedilol #CAD: no chest pain, aspirin, atorvastatin #OSA: CPAP at night
Labs: ()=1/1/2018 []=1/2/2018 INR: [1.4] AST: [21] PTT: [35] ALT: [17] ALB: [3.3] AlkP: [77] TB: [0.5] [11.2] (6.28) -> [6.64] >----------< [130] (36) -> [34] (135) -> [136]|[105]| [22] / [103] (3.9) -> [3.7] | [27] | (1.30) -> (1.10)\	**Ins/Outs** In=1200mL Out=2000mL Meds=200 Urine=2000 IO Net= -800mL Wt: 78.4 ->77.6kg (admit weight: 82kg)		**Action List** [ ] f/u BMP at 16:00, replete electrolytes **Situational Awareness** If/Then: -if patient has chest pain, then get STAT ECG and troponin. He has a history of a STEMI.

The last column on the right is an example of sign-out. Sign-out is written by your team every day and gives information about your patients to the team that takes care of them overnight. This sign-out uses the I-PASS system, which stands for Illness Severity, Patient Summary, Action List, Situational Awareness and Synthesis by Receiver. You will learn about sign-out in more detail on your clerkships. As you advance through the year, ask if you can help write sign-out.
